Hi Stephanie –

My apologies for taking so long to respond to this (and for missing your call!), I know you have a conference starting tomorrow and don't have a lot of time to work on this. Attached please find what should be the final agenda for the Summit (it will be circulated to all Summit RSVPs tonight or tomorrow).

Our aims for the steering committee presentations remain largely the same as when we all talked two weeks ago, though as you can see we've lost quite a bit of the time we had set aside for all of them. We should still easily have 8-10 min per product (and if anyone will take less than 8 min, that is just more time for the panel and Q+A, so that's great!).

I think the slides you put together on the Clearinghouse look great! We will incorporate these into the slide deck we're putting together. If I were to guide the Infrastructure steering committee's presentation any further, it would be to specifically emphasize the resources on infrastructure funding opportunities the workgroups members have been providing and whatever need there still might be in that area.

Let me know if you have any further questions, and have a fantastic conference tomorrow and Thursday!
-Brandon

Subject: Run of show: AR Summit speaking roles for steering committee members

Hi all –

Do we have an updated run of show from the attached discussion document circulated in October? I have a very narrow window to prep this before our Corporate Citizenship Conference kicks off tomorrow. As suggested I put three slides together representative of the portal– those are attached. Thanks!

Best,
Stephanie
